

Party Schedule – Tie Dye

Upon arrival

- Your Cake It Up hosts will greet you at our studio front door. We will quickly run through the party outline for the day, and take any party bags, balloons, cakes, presents or belongings you have brought into the studio. We wait until all guests to arrive to then welcome them into the studio together.
- Your party hosts will set up the individual kits, including tie dye bottles, trays, apparel & other supplies in preparation for the party guests to create.
- Once all of the guests have arrived, your party hosts will commence and get the party started (we allow for a 5 minute “late window” for guests who may running late).

it's time to get creative!

- The hosts will begin going through the different tie dye kits with the guests.
- We will introduce and explain tie dye and 2 different tie dye techniques to the kids, showing them examples of what they can make – the kids will look at all of the colours available and start to think of their colours and techniques they wish to start with. This is when the excitement truly begins & the creative cogs start to turn, it's great to see.
- Party guests are guided by the party hosts who will be giving a live demonstration of each step, step by step as they go along so no one will be left behind.

- First step, each guest will wet their apparel by spraying their garments with a water bottle, this is the fun part of learning and doing things from the start, the right way!
- Second step guided by the hosts, each guest will start to practice the folding & scrunching of the 3 different tie dye techniques, starting with the famous swirl. We work together in folding & scrunching the exact technique they wish to use for their first item, often coming up with their own creative twist on these techniques. Once we've each decided on our design, we teach the guests how to secure their design ready for dying.

let's get colouring!

- It's time for colour! With our guidance, guests will pick colours and start to add their chosen colours to their first piece of apparel, this is where the magic truly begins, the look on the faces when they start to apply the dye, this is priceless. This part of the party is guided but also freestyle, allowing each guest to truly get creative, apply their own dye and learn at the same time. We help and assist when guests need us, the important thing here is we help, not take over their creations, that's the Cake It Up difference. We love to foster creativity and not force it; we love seeing the guest creativity come to light!
- We then work on the guests second piece of apparel, assisting guests where needed, but allowing the freestyle nature of this part of the party to continue to flow, after all, that's what creativity is all about, letting your creative juices flow!

Tie dye wrap up

- At the end of dying each item of apparel, we place the items in a zip lock bag, each guest writing their own name on their bags so they can easily identify their own masterpieces to take home.
- The tie dye starts to wind up with cleaning & care instructions given (a printed hand out will be given to each guest in their pack to take home for washing & care instructions of their creations).

It's time to eat

- After 1 hour of tie dying & cleaning up with the children, we start to pack up as a group. We then move forward with the remainder of the party to serve party food, cut the cake, mingle & hang out, put music on and dance for the remainder of our party time.

Party Inclusions
