

Party Schedule

Makeup & Photo Shoot

Upon arrival

- We kindly ask guest to arrive 5 minutes before the scheduled party time.
- You will be greeted by one of our friendly staff out the front of our studio. This is an exclusive use space and only host one party at a time. The existing party could still be finishing so we will bring you in once they have vacated the studio & we are set up and ready to go
- Once all the guests have arrived, we then bring them into our studio as one group, your party hosts will commence and get the party started (we allow for a 5 minute "late window" for guests who may running late).

It is time for Make Up!

The hosts will then begin going through the makeup kits with the guests sitting at their own makeup station.

They will introduce and explain how to use their brushes, sponges, mirror & makeup - This is the fun part as the party guests get to look, touch, feel and figure out what all of their makeup tools are for

Party guests are guided by the party hosts who will be giving a live demonstration of each step, step by step as they go along so no one will be left behind.

First step, we pop our headbands on and teach the kids the importance of cleaning & preparing their skin.

Second step is to colour match our skin to the right colour foundation, this is the most important step in getting your makeup look right.

Third step, we apply our primer and then slowly apply foundation with our makeup sponge, teaching them about blending.

let's play - it's from the eyeshadow step that we allow them to have a play with colours they like, this is the best fun watching their creative side come to light.

We continue to guide the children step by step in applying powder with their brush, bronzer, blush and finally eyeshadow.

We finish off our makeup with by lip-gloss & the final touch, face jewels!

This is all done with supervision and assistance from the hosts where required, we are there to assist but not take over, it's very important to us to let their own unique individuality shine through and do this themselves.

LIGHTS, CAMERA, ACTION!

At the end of our makeup session, it's time for lights, camera, action!

We have several photo backdrops for you to choose from. We also get out our studio lights for full effect!

Guests then pose for individual and group photos if they wish to have their photo taken. We supply props for the kids to use but we also let them have the freedom to just do what they want to do, after all, it is a party!

We supply each guest with their own makeup brush set to take home.

The official makeup & photo shoot ends with clean up instructions to the children, handing the children back to into the party parents care. We then pack up and quietly leave whilst the party parent continues with the rest of the party.
